mast joiner 17-1412

for creating a temporary join between
14 & 12 mm diameter carbon fibre tubes

tel + 44 (0) 1376 570583 fax + 44 (0) 1376 571437 sales@sailsetc.com sailsetc.com

- 1 Design the mast to have a 100 mm overlap between the 14 mm and 12 mm diameter sections.
- 2 Bond the joiner to the lower end of the 12 mm diameter piece using cyanoacrylate glue.
- 3 Allow the glue to cure totally before placing the tubes together.
